Kobelco SK200 to SK350LC-10

Kobelco Generation 10 at LiftRite Hire & Sales

Kobelco has taken productivity and durability to a new level with the introduction of the new Generation 10 excavator.

Generation 10 introduces new technology producing very significant fuel savings of up to 19% in Eco-mode and 16% in H-mode. Over the life of the machine these savings make a massive difference to your costs.

Kobelco equipment stays out front of the competition with standard features such as the iNDr, Kobelco's revolutionary noise and dust reduction cooling system which effectively delivers ultra low noise during operation.

GEOSCAN is included with Generation 10 which provides remote access to a full suite of data on the machine including location, fuel consumption, maintenance status and security alerts.

Of course the Generation 10 machines still have as standard Kobelco's legendary build quality and durability. Talk to the LiftRite team about cost effective earthmoving solutions and what Kobelco can do for you.

For more information on improving your productivity with Kobelco Generation 10 talk to our Earthmoving Product Specialists today on (08) 9455 2077.

R Series Skid Steer Loaders

There is nothing tougher than a Gehl

GEHL®

WHEN you need a skid steer loader that just keeps on going, look no further than the Gehl R Series range of machines. US built and built tough, R Series is designed to keep the operator safe and productive all day every day.

With R Series units ranging from the R135 with 680 kg rated capacity with optional counterweight up to the 1261Kg rated R260 model, there is a machine to suit your needs.

Need something bigger? Check out the Gehl vertical lift V Series right up to the V400, the world's biggest Skid Steer Loader!

Gehl Skid steer loaders offer an excellent suite of safety and productivity features to such as Level II FOPS, low profile lift arm, easy cab access, excellent auxiliary hydraulic flow rates and optional bucket self leveling.

For more information on the Gehl product range talk to the LiftRite Earthmoving Product Specialists on (08) 9455 2077.

Robust, Efficient and Easy to Operate

Manitou's MI Forklift range has been designed with people in mind. Easy to operate and maintain whilst being robust and cost effective, there is a whole lot to like about them.

These units do a great job of taking away all of the things that you don't need in a forklift and doing a great job of the things that you do. Without the fuss and flurry that some manufacturers seem to enjoy!

MI comes in a great range of LPG and Diesel machines ranging from 1.4 tonne right up to 10 tonne capacities. Strong Yanmar Diesel or Nissan LPG engines coupled with Power Shift transmissions as standard equipment.

With a full range of Duplex or Triplex masts with lift heights up to 6.0 metres, there is a machine with the reach to suit your operations.

Manitou Industrial forklifts are available on Manitou Fast-Track Finance with no deposit, no financials to approved applicants.

LiftRite Hire & Sales can offer MI machines for sale or hire to suit your business needs in a large range of sizes.

Talk to our Product Specialists today on the easy way to get a new forklift into your fleet. Ph: (08) 9455 2077

Kalmar Reach Stackers

Productivity, Performance, Technology

Talk to our Team about purchasing Kalmar or discuss a Kalmar Rental to suit your needs on (08) 9455 2077.

Kalmar Technology

Kalmar K-Motion is the answer for vastly improved efficiency and fuel saving. This technology provides all of the power when it's needed and doesn't waste fuel when you don't.

K-Motion provides up to 40% fuel and emmission savings compared against non K-Motion machines offering owners significant operating savings.

SmartFleet will track your fleets movements in real time monitoring fuel usage, lifts per hour and provides the owner the oportunity to eliminate areas of inefficiency in their operations.

SOLAS is now available in your Kalmar equipment to meet international guidelines for weighing shipping loads prior to dispatch. The Kalmar SOLAS system is fully integrated with SmartFleet systems giving you permanent records and peace of mind.

Kalmar have always been at the forefront of engineering excellence and technology. This has now gone a step further with the addition on SOLAS systems to the range.

As Western Australia's only authorised Kalmar Dealer, LiftRite can offer the full Kalmar range including support for Kalmar Technology.
