- Level 2 FOPS cabin structure
- Low Profile lift arm for improved vision
- Optional counter weight for increased capacity
- Powerful Yanmar engines
- Choice of controls
- Great range of attachments
- Easy maintenance access

ENOUGH TALK JUST DIG!

Manitou - Industrial & Rough Terrain Forklifts

Manitou are a top 10 global producer of material handling equipment. Best known for building exceptional rough terrain machines, many don't realise that Manitou make a wide range of Industrial and Semi Industrial forklifts as well.

These machines are built with the same attention to detail as the rough terrain equipment in a large range of capacities.

With a reputation for well designed and built forklifts, take a closer look at the Manitou forklift range.

Manitou Semi Industrial - MSI

Where offroad lifting is required on firm surfaces the MSI is the perfect machine. Capacities from 2500 to 5000 kg and lift heights up to 5 metres. These machines are 2 wheel drive with hydrostatic transmission and diesel power from Kubota and Perkins.

Rough Terrain

For the toughest environments you can't go past the M-X machines. Available from 3.0 to 7.0 tonne capacities. They simply don't come tougher than this!

Manitou Industrial - MI

The MI range of Industrial Forklifts are available in 1.5 to 10 tonne capacities covering a large range of applications.

With several mast options, including container masts, plus LPG or diesel power there is a model to suit most industrial fleet requirements.

MI machines are simple to operate and maintain and will provide a long trouble free operating life.

Rough Terrain

Rough Terrain requires a tough forklift truck. MH25-4T 2500 Kg 4x4 offers rugged construction, semi open or enclosed cabins and off road capability. Available in 2.7 to 4.5 metre lifting heights, hydrostatic transmission and diesel power.
